BMP Description:

NURP Pond

Outlet Control Structure with Sump & Hood (OCS 701)

Maintenance Tasks and Timeline

Tasks	Frequency and Comments		
Debris clean out	Monitor in spring and fall, and additionally as		
	needed		
Sediment removal	Monitor sediment build up annually, clean out when		
	sediment occupies 30% of dead storage volume of		
	pond		
Vegetation	Monitor annually in spring, additionally as needed		
	until vegetation is established, remove undesirable		
	vegetation as needed in the NURP Pond		
FES Inlets	Monitor annually and repair as needed		
Outlet	Monitor annually and repair as needed		
Storm sewer system	Monitor annually and remove sediment as needed		
Outlet Control Structure (OCS 701)	The inspection, and any subsequent maintenance,		
	will be reported to the city on an annual basis using		
	documentation that includes all pertinent		
	information.		
	Visual inspection of OCS 701 shall be on a bi-annual		
	basis.		
	Clean out OCS 701 every 5 years minimum or on an		
	as needed basis where sediment has accumulated		
	following bi-annual inspections.
