RE: Site Walk Through of Proposed Oasis Park Trail

Dear Property Owner/Tenant:

The City is currently exploring options to formalize and pave the existing informal footpath that currently exists on the south side of Oasis Park. As you are likely aware, a 10-foot bituminous (asphalt) trail is currently being constructed from County Road C to Terrace Avenue (see map on reverse). The proposed new trail would connect with the north side of that trail and create a more accessible, non-motorized bituminous connection into and out of the south side of Oasis Park.

The construction of the proposed Oasis Park trail will be paid for primarily with funds acquired from recent developments. As a result, there will be no cost or assessment to property owners.

A preliminary conversation regarding this project was held in December. Further analysis of the proposal including a feasibility study has been undertaken. This is a connection that has been identified in the City's Pathways Master Plan and the City's Parks and Recreation System Master Plan.

To discuss the proposed project, city staff will be holding a site walk through on **Thursday**, **June 3**rd at 6:00pm at Oasis Park. The group will meet at the outside of the Oasis Park Building and from there staff will share the current proposal and walk the site with interested residents. In the event of inclement weather, a make-up date will be posted at cityofroseville.com/3520/Twin-Lakes-Trail-Project.

For more information about the trail project, visit <u>cityofroseville.com/3520/Twin-Lakes-Trail-Project</u>. If you have any questions prior to the meeting or if you are unable to attend the meeting, please feel free to email me at <u>matthew.johnson@cityofroseville.com</u> or call me directly at 651-792-7102.

Sincerely,

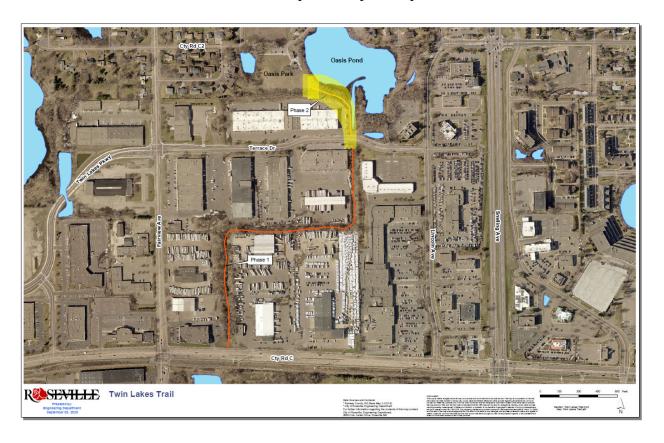

Matthew L. Johnson

latth 2. John

Assistant Director of Parks and Recreation
