This page left blank intentionally

May 3rd, 2023

To the City Council and Citizens of the City of Roseville:

Minnesota statutes require all cities to issue an annual report on its financial position and activity prepared in accordance with generally accepted accounting principles in the United States of America (GAAP), and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants or the Office of the State Auditor. Pursuant to that requirement, we hereby issue the annual comprehensive financial report of the City of Roseville for the fiscal year ended December 31, 2022.

This report consists of management's representations concerning the finances of the City of Roseville. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Roseville has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Roseville's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Roseville's internal controls have been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Roseville's financial statements have been audited by Redpath and Company, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Roseville for the fiscal year ended December 31, 2022 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City of Roseville's financial statements for the fiscal year ended December 31, 2022, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City of Roseville's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The City of Roseville, incorporated in 1948, is a suburban community bordering both Minneapolis and St. Paul, Minnesota in the eastern part of the state. This area is considered to be the major population and economic growth area in the state, and among one of the highly ranked economic growth areas in the country. The City of Roseville currently occupies a land area of 13.7 square miles and serves a population of 36,440. The City of Roseville is empowered to levy a property tax on both real and personal properties located within its boundaries. While it also is empowered by state statute to extend its corporate limits by annexation, Roseville is a completely developed community and is bordered on all sides by other incorporated communities.

The City of Roseville has operated under the council-manager form of government since 1974. Policy-making and legislative authority are vested in a city council consisting of the mayor and four other members. The city council is responsible, among other things, for passing ordinances, adopting the budget, appointing committees, and hiring the city manager. The city manager is responsible for carrying out the policies and ordinances of the council, for overseeing the day-to-day operations of the city government, and for appointing the heads of the various departments. The council is elected on a non-partisan basis. The Mayor and Council members serve four-year staggered terms. The council and mayor are elected at large.

The City of Roseville provides a full range of services, including police and fire protection; the construction and maintenance of highways, streets, and other infrastructure; water and sewer services and recreational activities and cultural events.

The annual budget serves as the foundation for the City of Roseville's financial planning and control. All departments and agencies of the City of Roseville submit requests for appropriation to the City Manager in May of each year. The City Manager uses these requests as the starting point for developing a proposed budget. The City Manager then presents this proposed budget to the council for review prior to August 31st. The council is required to hold public hearings on the proposed budget and to adopt a final budget by no later than December 31st, the close of the City of Roseville's fiscal year.

The appropriated budget is prepared by fund, function (e.g., public safety), and department (e.g., police). Department heads may make transfers of appropriations within a fund. Transfers of appropriations between funds, however, require the special approval of the city council. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented on page 86 as part of the basic financial statements for the governmental funds. For governmental funds other than the general fund, and with appropriated annual budgets, this comparison is presented in the required supplementary information and the governmental fund subsection of this report, shown on pages 87-90 and 106-108.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City of Roseville operates.

Local Economy. The City of Roseville currently enjoys a favorable economic environment and local indicators point to continued stability and improvement. The region, while noted for a strong retail sector, enjoyed modest re-development in recent years. The re-development consisted of varied retail that added

to the relative stability of the unemployment rate. Major industries with headquarters or divisions located within the government's boundaries or in close proximity include computer hardware and software manufacturers, electrical controls and medical services, and several divisions of state government departments which administer the state highway system and the State's educational administration of K-12 operations.

The City of Roseville area has an employed labor force of approximately 40,000 which is anticipated to remain steady for the foreseeable future.

Because of the fully developed nature of the community, the opportunity for new and expanded housing is limited. The city's emphasis has been, in recent years, on assisting homeowners to redevelop and remodel the current available housing so that as the change-over from older residents occurs, younger families will continue to be attracted to Roseville.

Long-term Financial Planning. The city council annually participates in the development of the City's long-term goals and objectives. Recently adopted goals include; establishing adequate funding mechanisms for infrastructure replacement, redeveloping the City's housing options, and securing funds for new initiatives.

The city is also working closely with state, federal and neighboring communities to improve the area's state and county transportation network, which includes upgraded highways and strategically-placed pathways. Funding for most of the transportation improvements will need to come from state, county and federal sources, with a smaller portion supported by the local taxpayers.

Relevant Financial Policies. As part of the annual budget process, the City reviews a number of fiscal and budget policies. There have been no significant changes to these policies from the previous year.

Major Initiatives. Each year the goal of the City is to provide residents and businesses with the necessary and desired services in the most efficient manner while limiting the financial burden to taxpayers. Secondary goals center on the allocation of resources to uphold previously identified community aspirations, and meeting the needs identified in the most recent citizen survey. Those aspirations included the following:

City of Roseville Community Aspirations

- ❑ Welcoming, inclusive, and respectful;
- ❑ Safe and law-abiding;
- ❑ Economically prosperous, with a stable and broad tax base;
- ❑ Secure in our diverse and quality housing and neighborhoods;
- ❑ Environmentally responsible, with well-maintained natural assets;
- ❑ Physically and mentally active and healthy;
- ❑ Well-connected through transportation and technology infrastructure; and
- ❑ Engaged in our community's success as citizens, neighbors, volunteers, leaders, and businesspeople.

Achieving these goals and strategies are not expected to have a significant financial impact however. It is expected that a portion of existing resources will be redirected to the extent possible. In addition, it is expected that future debt obligations will decline which will allow existing resources dedicated to debt service to be re-purposed.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Roseville for its annual comprehensive financial report (ACFR) for the fiscal year ended December 31, 2021. This was the 43rd consecutive year that the city has received this prestigious award. In order to be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized ACFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the City also received its 27th GFOA Distinguished Budget Presentation Award for its annual budget document dated January 1, 2022. In order to qualify for the Distinguished Budget Presentation Award, the government's budget document was judged to be proficient in several categories, including as a policy document, a financial plan, an operations guide, and a communications device.

The preparation of this report would not have been possible without the dedicated services of the Finance Department Staff. I would like to express my appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit must also be given to the Mayor and the City Council for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Roseville's finances.

Respectfully submitted

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and
Members of the City Council
City of Roseville, Minnesota

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Roseville, Minnesota, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the City of Roseville, Minnesota's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Roseville Minnesota, as of December 31, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Roseville, Minnesota and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Roseville, Minnesota's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Governmental Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Roseville, Minnesota's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Roseville, Minnesota's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Change in Accounting Principle

As described in Note 3.G. to the financial statements, the City of Roseville, Minnesota adopted new accounting guidance for the year ended December 31, 2022, Governmental Accounting Standards Board Statement No. 87, Leases. Our opinions are not modified with respect to this matter.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedules, and the schedules of OPEB and pension information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with

management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Roseville Minnesota's basic financial statements. The accompanying combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 3, 2023, on our consideration of City of Roseville Minnesota's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Roseville, Minnesota's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Roseville, Minnesota's internal control over financial reporting and compliance.

CITY OF ROSEVILLE, MINNESOTA

MANAGEMENT'S DISCUSSION AND ANALYSIS For Year Ended December 31, 2022

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As management of the City of Roseville, we offer readers of the City's financial statement this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2022. We encourage readers to consider the information presented here in conjunction with the City's financial statements and the additional information that we have furnished in our letter of transmittal, which can be found on pages 1 through 4 of this report.

Financial Highlights

- The assets and deferred outflows of the City of Roseville exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$208,077,671 (Net position). Of this amount, \$21,009,027 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors in accordance with the City's fund designations and fiscal policies.
- The City's total net position from operations increased by \$1,127,737.
- As of the close of the current fiscal year, the City of Roseville's governmental activities reported combined ending unrestricted net position of \$18,562,509.
- At the end of the current fiscal year, unrestricted fund balance for the general fund was \$8,131,654 or 39.26% of total general fund expenditures.
- The City of Roseville total bonded debt decreased by \$2,250,000 during the current fiscal year.

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the City's assets and deferred outflows, and liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. To assess the overall health of the City, one needs to consider additional non-financial factors such as changes in the City's property tax base and the condition of the City's infrastructure.

The *Statement of Activities* presents information showing how the City's net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, public works, economic development and recreation. The business-

CITY OF ROSEVILLE, MINNESOTA

MANAGEMENT'S DISCUSSION AND ANALYSIS For Year Ended December 31, 2022

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

type activities of the City of Roseville include water, sanitary sewer, golf, storm drainage and recycling.

The government-wide financial statements can be found in the Basic Financial Statements section of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains 14 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General, Recreation, ARPA, Community Development, Information Technology, Roseville Economic Development Authority, Debt Service, Revolving Improvements, Economic Increments Construction and Street Construction, all of which are considered major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The basic governmental fund financial statements can be found in the Basic Financial Statements section of this report.

Proprietary Funds – The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its Sanitary Sewer, Water, Golf Course, Storm Drainage and Solid Waste Recycling operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses its internal service funds to account for Workers' Compensation Self Insurance and Risk Management. The services provided by these funds predominately benefit the governmental rather than the business-type functions. They have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate

CITY OF ROSEVILLE, MINNESOTA

MANAGEMENT'S DISCUSSION AND ANALYSIS For Year Ended December 31, 2022

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

information for the Sanitary Sewer, Water, Golf Course, Storm Drainage and Solid Waste Recycling since they are considered to be major funds of the City. Both internal service funds are combined into a separate single aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found in the Basic Financial Statements section of this report.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found in the Basic Financial Statements section of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Supplementary Information

In addition to the basic financial statements and accompanying notes, *Required Supplementary Information*, presents a detailed budgetary comparison schedule for the General, Recreation and the Community Development Fund to demonstrate compliance with the budget. In accordance with the requirements of GASB Statement 75, it also includes other post-employment benefit plan schedule of funding progress. The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds and other information related to the individual funds are presented immediately following the required supplementary information.

CITY OF ROSEVILLE, MINNESOTA

MANAGEMENT'S DISCUSSION AND ANALYSIS For Year Ended December 31, 2022

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

The analysis of the City's financial position begins with a review of the *Statement of Net Position* and the *Statement of Activities*. These two statements report the City's net position and changes therein. It should be noted that the financial position can also be affected by non-financial factors, including economic conditions, population growth and new regulations. Net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Roseville, assets and deferred outflows exceeded liabilities by \$208,077,671 as of December 31, 2022. This represents an increase of \$1,127,737 from the previous year.

By far the largest portion of the City of Roseville's net position (83.31% percent) reflects its investment in capital assets (e.g. land, buildings, machinery, equipment and infrastructure) less any related debt used to acquire those assets that is still outstanding. The City of Roseville uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City of Roseville's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

A portion of the of the City of Roseville's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position - \$21,009,027 may be used to meet the City's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City of Roseville is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The only exception to this is the charitable gambling fund, which was negative as a result of the fair market adjustment for investments.

Analysis of the City's Operations – Governmental activities decreased the City of Roseville's net position by \$993,656; Business-type activities increased Roseville's net position by \$2,121,393; for an overall increase of \$1,127,737. Key elements of this increase are as follows:

CITY OF ROSEVILLE, MINNESOTA

MANAGEMENT'S DISCUSSION AND ANALYSIS For Year Ended December 31, 2022

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

Governmental Activities

The decrease in net position resulted from the disposal of Metro-INET and the decrease in fair value of investments which offset increases in property taxes and charge for services.

Below are specific graphs, which provide comparisons of the governmental activities revenues and expenses for the last fiscal year.

CITY OF ROSEVILLE, MINNESOTA

MANAGEMENT'S DISCUSSION AND ANALYSIS For Year Ended December 31, 2022

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

Business-type Activities

The increase in net position for business-type activities reflects improved cost containment. Rate increases in 2022 for Water, Sewer, Storm Drainage and Recycling were implemented to offset declining interest earnings and other non-tax revenue sources. The rate increases were also implemented to provide yearly contributions for future funding of capital asset replacement.

Below are graphs showing the business-type activities revenue and expense comparisons for the past fiscal year.

CITY OF ROSEVILLE, MINNESOTA

MANAGEMENT'S DISCUSSION AND ANALYSIS For Year Ended December 31, 2022

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

Governmental Funds

The focus of the City of Roseville's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Roseville's financing requirements. In particular, unrestricted fund balance may serve as useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City of Roseville's governmental funds reported combined ending fund balances of \$43,893,304. Approximately 68.77% of this total amount \$30,183,362 constitutes unrestricted fund balance. The remainder of the fund balance is restricted to indicate that it is not available for new spending because it is legally restricted for; 1) various operating purposes - \$6,591,999, 2) for tax increment financing activities - \$4,003,839, 3) debt service - \$2,224,332 and 4) housing and economic development - \$899,772.

The General Fund decreased \$1,649,070 due to the fair value of investments valuation adjustment. Also, planned for using \$150,000 of fund balance to pay for the community visioning and code recodification projects which are infrequent projects.

The Recreation Fund increased by \$83,964, due mainly to increased program charges for services as the participation rebounded from the pandemic in 2020.

The Community Development fund decreased by \$319,436 due to license and permits revenue activity that was lower than anticipated in 2022. The decreased revenue can be attributed a slow down in new building projects

The Information Technology fund decreased by \$1,024,422 due to the transfer of balance related to Metro I-NET breaking off to be its own entity.

The Roseville Economic Development Authority fund decreased by \$273,003 due to the decrease in fair value of investments valuation adjustment.

The Debt Service Fund decreased by \$159,068 largely due to the decrease in fair value of investments valuation adjustment.

The Revolving Improvements Fund increased by \$1,578,716 mainly due to the sale of an old fire station capital asset.

The Economic Increments Construction Fund accounts for the activities in the City's Tax Increment Financing (TIF) Districts. The Fund's balance increased by \$229,743 due to receipt of new district tax increment received in 2022 but not scheduled to be expended until 2023.

The Street Construction Fund decreased by \$1,293,972 mainly due to planned use of reserves for capital projects in 2022 and the decrease in fair value of investments valuation adjustment.

Proprietary Funds

The City of Roseville's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

CITY OF ROSEVILLE, MINNESOTA

MANAGEMENT'S DISCUSSION AND ANALYSIS For Year Ended December 31, 2022

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

The Sanitary Sewer fund net position increased by \$1,577,455 in 2022. This was a result of an increase in sanitary sewer fee increases in 2022 to fund future capital investment needs and to offset increased operation costs.

The Water fund net position decreased by \$36,077, which was a result of increased repairs and maintenance costs for water main breaks.

The Golf fund net position decreased by \$63,136 in 2022, largely due to increased supplies and vehicle maintenance costs

The Storm Drainage fund net position increased by \$586,103 in 2022. This was a result of an increase in the rates charged in 2022 to cover future capital asset replacement.

The Solid Waste Recycling fund net position increased by \$57,048 in 2022. This was a result of increased rates charged in 2022 to cover operating costs and to build reserves for future capital outlay to purchase city owned recycling carts. Currently, the recycling contractor provides the carts.

The unrestricted net position in the respective proprietary funds is Sewer - \$2,379,733; Water – \$(1,557,222); Golf - \$(106,045); Storm - \$1,302,323 and Recycling - \$427,729. Future utility revenues are anticipated to resolve the current unrestricted deficit in the water fund. Overall, net position increased \$2,121,393 reflecting positive cash flow from utility rates, which were designated for future capital replacements.

General Fund Budgetary Analysis

The General Fund balance decreased by \$1,649,070 in 2022. The General Fund property tax revenue was \$203,369 lower than the final budget due to higher current year property tax petitions. The general fund investment income revenue was lower than the final budget due to the decrease in fair value of investment adjustment which is based on the market value as of December 31, 2022. The General Fund Public Safety function was \$421,333 over budget due to increased overtime for staff vacancies and work comp shift vacancies and vehicle repairs as a result of multiple vehicles damaged during the year. The Public works function was \$142,290 over budget due to increased overtime as a result of more than average number of snow events and also a result of higher fuel costs.

CITY OF ROSEVILLE, MINNESOTA

MANAGEMENT'S DISCUSSION AND ANALYSIS For Year Ended December 31, 2022

CAPITAL ASSETS

The City of Roseville's investment in capital assets for its governmental and business type activities as of December 31, 2022, amounts to \$190,478,749 (net of accumulated depreciation) – an increase of \$3,526,369 from the previous year. This investment in capital assets includes land, buildings, infrastructure, machinery and equipment.

Major capital asset events during the current fiscal year included the following:

- Approximately \$5 million in improvements to the City's speed skating facility and streets
- Approximately \$3.4 million in improvements to the City's sewer lines, water lines, lift stations and storm drainage infrastructure.

Additional information on the City of Roseville's capital assets can be found in Notes 1D and Note 3-C in the Notes to the Financial Statements section of this report.

CITY OF ROSEVILLE, MINNESOTA

MANAGEMENT'S DISCUSSION AND ANALYSIS For Year Ended December 31, 2022

LONG-TERM OBLIGATIONS

At the end of the current fiscal year, The City of Roseville had total long-term debt outstanding of \$16,420,000. Of this amount:

- \$295,000 for housing improvements
- \$7,445,000 for the general obligation for remaining construction of a new fire station and for various parks renewal projects
- \$4,140,000 for the refunding of general obligation bonds that financed the original construction of a new fire station and to make various park improvements
- \$2,205,000 in general obligation tax increment revenue bonds to finance public improvements within Tax Increment Financing District No. 17
- \$2,335,000 in general obligation water revenue bonds to finance the replacement of water infrastructure capital assets

OUTSTANDING DEBT GENERAL OBLIGATION IMPROVEMENT BONDS AND CERTIFICATES OF INDEBTEDNESS

	Governmental Activities 2022	Governmental Activities 2021	Business-Type Activities 2022	Business-Type Activities 2021	Total 2022	Total 2021
General obligation bonds						
Tax Increment Revenue Bonds	\$2,205,000	\$2,405,000	\$ -	\$ -	\$2,205,000	\$2,405,000
Municipal bonds	11,880,000	13,700,000	2,335,000	2,565,000	14,215,000	16,265,000
Total Outstanding Debt	\$14,085,000	\$16,105,000	\$2,335,000	\$2,565,000	\$16,420,000	\$18,670,000

The City of Roseville maintains an Aaa rating from Moody's and an AAA from Standard and Poor's on all of its general obligation debt.

Minnesota State statutes limit the amount of general obligation debt a city may issue to 3% of total Estimated Market Value. The current debt limitation for the City of Roseville is \$169,998,972. \$14,085,000 of the City's outstanding debt is counted against the statutory limitation as the debt is wholly financed by a general tax levy.

Additional information on the City of Roseville's long-term debt can be found in Note 1-D and Note 3-H this report.

Financial Outlook

A number of local economic factors played a role in setting next year's budget, utility rates and fee schedule:

- ❖ The City made operational adjustments to minimize the increased property taxes needed to ensure that the City's core services are funded in a manner that preserves the greatest value to the community. Main strategies of the 2023 budget were to invest in infrastructure, maintain city programs and workforce, and the strategic use of financial reserves and grant funding.
- ❖ User charges in the proprietary funds were increased to cover increased operational costs and to address asset replacement needs.

These factors were considered when the City of Roseville prepared its 2023 budget.

REQUESTS FOR INFORMATION

The financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the City's finances. If you have questions about this report or need any additional information, contact the Office of the Finance Director, 2660 Civic Center Drive, Roseville, MN 55113.

City of Roseville, Minnesota
**RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended December 31, 2022**
Statement 5
 (Page 1 of 1)

Net Change in Fund Balances - Total Governmental Funds	\$ (2,665,736)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlay as expenditures and do not report capital contributions. However, in the Statement of Net Position, the cost of these assets is capitalized and depreciated over their estimated useful lives with depreciation expense reported in the Statement of Activities and capital contributions are reported as program revenue.	1,715,023
Net effect of sales, trade-ins and retirements of capital assets	(224,500)
Payments on general obligation debt	2,020,000
Premium on general obligation bonds amortized	154,681
Net change due to internal service funds incorporated into statement of activities	(281,096)
Net change in net pension obligation - City	(997,228)
Net change in net pension asset - Fire Relief	(572,661)
Net change in net pension obligation - OPEB	(85,119)
Change in compensated absences	116,484
Change in bond interest payable	41,745
Adjustment for modified accrual revenue recognition related to Special assessments, delinquent property tax and delinquent tax increment	<u>(215,249)</u>
Change in Net Position of Governmental Activities	<u>\$ (993,656)</u>

The notes to the financial statements are an integral part of this statement.

Note 1 SUMMARY DESCRIPTION OF THE PLAN

A. FINANCIAL REPORTING ENTITY

The City of Roseville is a municipal corporation formed under Section 412 of Minnesota State Statutes and operates under a Council-Manager form of government. The five-member Council and Mayor are elected on rotating terms in each even-numbered year.

The financial statements present the City and its component unit. The City includes all funds, organizations, institutions, agencies, departments and offices that are not legally separate from such. Component units are legally separate organizations for which the elected officials of the City are financially accountable and are included within the basic financial statements of the City because of the significance of their operational or financial relationships with the City.

The City is considered financially accountable for a component unit if it appoints a voting majority of the organization's governing body and it is able to impose its will on the organization by significantly influencing the programs, projects, activities or level of services performed or provided by the organization or there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on, the City.

As a result of applying the component unit definition criteria above, certain organizations are presented in this report as follows:

Blended Component unit. The Roseville Economic Development Authority (EDA) was established to facilitate development and redevelopment in the City. The governing board consists of the members of the City Council. The City approves the levy and appropriations for the EDA annually as part of the City's budget process. Any sale of bonds or obligations issued by the EDA must be approved by the City Council before issuance and the City Council may require the EDA to transfer any portion of the reserves generated by activities of the EDA to the City to reduce the tax levies for bonded indebtedness of the City. The EDA does not issue separate financial statements. Financial information may be obtained at the City's offices.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component unit. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on user fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment, are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment.

Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, service or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds. With the economic resource's measurement focus, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditure-related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

General

The general fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Special Revenue

The recreation fund accounts for resources and payments related to adult and youth programs, nature center, skating center, and park maintenance activities. Most revenues are derived from user fees of various programs and activities, room rentals, donations, and concessions.

The American Rescue Plan (ARPA) fund accounts for revenues and expenditures related to the Coronavirus State and Local Fiscal Recovery Funds grant authorized by the American Rescue Plan Act. The City did not budget for these funds.

The community development fund accounts for resources and payments related to the City's building codes enforcement, development, and redevelopment activities. The funds primary revenue sources are through permits, contractor licenses, and plan check fees.

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

The information technology fund accounts for the revenue and expenditures used to provide information technology.

The Roseville Economic Development Authority accounts for the revenue and expenditures used for the activity of the Roseville Economic Development Authority general operations.

Debt Service

The debt service fund accounts for resources accumulated and payments for principal and interest on long term general obligation debt.

Capital

The revolving improvements fund accounts for revenues and expenditures from replacement funds set aside for equipment and building replacement, and general land improvements. The economic increments construction fund accounts for tax increment payments to various developers as part of Pay-as-you-go TIF agreements and infrastructure improvements. The street construction fund accounts for revenues and expenditures related to street construction and improvements.

The City reports the following major proprietary funds:

The sanitary sewer fund and the water fund account for the activities related to the operation of a sanitary collection system and a water distribution system, respectively.

The golf course fund, accounts for resources and payments related to the operation and maintenance of a municipal golf course.

The storm drainage fund accounts for activities related to the operation of a surface water collection system.

The recycling fund accounts for the resources and expenditures related to the operation of a solid waste recycling collection system.

Additionally, the City reports the following fund types:

Internal service funds account for the worker's compensation and general insurance services provided to other departments or agencies of the City.

Fiduciary Fund - Custodial funds are used to account for assets held by the City as an agent for other organizations and are not available to the City for general operations. The City's custodial fund accounts for resources held by the City for the Roseville Islamic Cemetery. The funds use the economic resources measurement focus.

As a rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this rule are other charges between the City's water and sewer function and various other functions of the primary government and its component unit. Elimination of these charges would distort the direct costs and program revenues reported from the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the City's enterprise funds and internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, and then unrestricted resources as they are needed.

D. ASSETS, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION/FUND BALANCE

1. Deposits and investments

Cash and investment balances from all funds are pooled and invested to the extent available in authorized investments. Investment income is allocated to individual funds on the basis of the fund's equity in the cash and investment pool.

Investments are stated at fair value, except for investments in external investment pools that meet GASB 79 requirements, which are stated at amortized costs. Interest earnings are accrued at year-end.

For purposes of the Statement of Cash Flows, the enterprise and internal service funds participate in the pooling of City-wide cash and investments. Amounts from the pool are available to these funds on demand. As a result, the cash and investments of the enterprise and internal service funds are considered to be cash and cash equivalents for statement of cash flow purposes.

Authorized investments are pursuant to applicable Minnesota Statutes including Chapter 118A and the more restrictive City policy. Minnesota Statutes authorize the City to invest in the following:

- a) United States Treasury obligations and United States Government Agency securities (excluding high-risk mortgage-backed securities).
- b) Obligations of the State of Minnesota or any of its municipalities as follows:
 - 1. any security which a general obligation of any state or local government with taxing powers which is rated "A" or better by a national bond rating service;
 - 2. any security which is a revenue obligation of any state or local government with taxing powers which is rated "AA" or better by a national bond rating service; and
 - 3. a general obligation of the Minnesota housing finance agency which is a moral obligation of the State of Minnesota and is rated "A" or better by a national bond rating agency.

- 4. Any security which is an obligation of a school district with an original maturity is not exceeding 13 months and (i) rated in the highest category by a national bond rating service or (ii) enrolled in a credit enhancement program pursuant to section 126C.55.
- c) Bankers' acceptance of United States banks eligible for purchase by the Federal Reserve System.
- d) Commercial paper issued by United States corporations or their Canadian subsidiaries, of the highest quality, and maturing in 270 days or less.
- e) Repurchase or reverse repurchase agreements with U.S. government.
- f) General obligation temporary bonds of the same governmental entity issued under section 429.091, subdivision 7; 469.178, subdivision 5; or 475.61, subdivision 6.
- g) Time deposits that are fully insured by the Federal Deposit Insurance Corporation.
- h) Guaranteed Investment contracts issued or guaranteed by United States commercial banks, domestic branches of foreign banks, United States insurance companies, or their Canadian subsidiaries, or domestic affiliates of any if the foregoing with a credit quality in one of the two highest risk rating categories by at least one nationally recognized statistical rating organization.
- i) Shares of a Minnesota joint powers investment trust whose investments are restricted to securities described in Section 118A.04 and 118A.05.

Investments for the City and the component unit are reported at fair value.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The Hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portion of interfund loan).

All utility and property tax receivables, including those for the HRA, are shown at a gross amount, since both taxes and utility receivables are assessable to the property taxes and are collectible upon sale of the assessed property.

Property taxes are submitted to the County Auditor by December 28 of each year, to be levied on January 1 on property values assessed as of the same date. The tax levy notice is mailed in March with the first half payment due on May 15 and the second half payment is due on October 15.

The entity's lease receivable is measured at the present value of lease payments expected to be received during the lease term. Under the lease agreement, the entity may receive variable lease payments that are dependent upon the lessee's revenue/the lessee's usage levels.

3. Prepaid Items

Certain payments to vendors which reflect costs applicable to future accounting periods are recorded as prepaid items in both government-wide and fund financial statements. The City uses the consumption method for accounting prepaid expenses, where the City reports the prepaid items as an asset in the period in which they are purchased and defers the recognition of the expenditure until the period in which the prepaid items are used or consumed.

4. Restricted Assets

Certain assets in the water fund are restricted to the extent of the customer deposits, which are carried as liabilities.

5. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), and intangible assets such as easements and computer software are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets, except infrastructure assets, are defined by the City as assets with an initial, individual cost equal to or greater than \$5,000 and an estimated useful life in excess of 2 years. Accordingly, the amounts spent for the construction or acquisition of infrastructure assets are capitalized and reported in the government-wide financial statements regardless of their amount.

With the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities), the City chose to include all such items regardless of their acquisition date or amount. The City's Pavement Management Plan contained all historical costs for the City's general infrastructure assets. As the City constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. Donated capital assets are recorded at their acquisition value on the date of donation.

Property, plant and equipment of the City are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Building Improvements	25
Furniture and Equipment	5
Light Vehicles	5
Heavy Vehicles	10
Fire Trucks	20
Streets and public infrastructure	50
Utility distribution systems	80

The City implemented GASB 51, Accounting and Financial Reporting for Intangible Assets effective January 1, 2010, which required the City to capitalize intangible assets. Pursuant to GASB Statement 51, in the case of initial capitalization of intangible assets, the City chose to capitalize intangible assets retroactively to 1980. The City was able to obtain historical costs and estimated fair value of donated intangible assets as of the date of donation for the initial reporting of easements through public works project records.

6. Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net assets that applies to future period(s) and so will not be recognized as an outflow of resources (expense/expenditures) until that time. The City has one item that qualify for reporting in this category. The City presents deferred outflows of resources on the Statement(s) of Net position for deferred outflows of resources related to pensions. Deferred outflows of resources related to pensions results from the difference between projected and actual earnings, changes in actuarial assumptions and employer contribution paid to PERA subsequent to the measurement date.

In addition to liabilities, the statement of financial position and fund financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has three items that qualify for reporting in this category. The City presents deferred inflows of resources on the Governmental Fund Balance Sheet as unavailable revenue. The governmental funds report unavailable revenues from three sources: property taxes, special assessments and lease agreements. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The City presents deferred inflows of resources on the Statement(s) of Net Position for deferred inflows of resources related to pensions and leases. Deferred inflows of resources related to pensions results from the net difference expected and actual economic experience and changes in proportion. The deferred inflow of resources is recorded at the commencement of the lease in an amount equal to the initial recording of the lease receivable, and is recognized as revenue over the lease term.

7. Compensated absences

It is the City's policy to permit employees to accumulate earned but unused vacation, paid time off (PTO), compensatory time, and sick pay benefits. There is an estimate for a liability for unpaid accumulated sick leave, as employees may receive up to 320 hours upon retirement only. Vacation, PTO, compensatory time, and estimated sick pay benefits are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

8. Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and the relief association and additions to/deductions from PERA's and the relief association's fiduciary net position have been determined on the same basis as they are reported by PERA and the relief association except that PERA's fiscal year end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

9. Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, and proprietary fund type statement of net position. Bond premiums and discounts, if material, are deferred and amortized over the life of the bonds using the effective interest method. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

10. Fund balance

a. Classification

In the fund financial statements, governmental funds report fund classifications that comprise hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

- **Nonspendable Fund Balance** – These are amounts that cannot be spent because they are not in spendable form.
- **Restricted Fund Balance** – These are amounts that are restricted to specific purposes either by a) constraints placed on the use of resources by creditors, grantors, contributors, or laws or regulations of other governments or b) imposed by law through enabling legislation.
- **Committed Fund Balance** – These are amounts that can only be used for specific purposes pursuant to constraints imposed by the City Council (highest level of decision-making authority) through resolution.
- **Assigned Fund Balance** – These are amounts that are constrained by the City's intent to be used for specific purposes but are neither restricted nor committed. Pursuant to Council resolution, the City Council is authorized to establish assignments of fund balance.
- **Unassigned Fund Balance** – These are residual amounts in the General Fund not reported in any other classification. The General Fund is the only fund that can report a positive unassigned fund balance. Other funds would report a negative unassigned fund balance should the total of nonspendable, restricted and committed fund balances exceed the total net resources of that fund.

When both restricted and unrestricted resources are available for use, it is the City's policy to first use restricted resources, and then use unrestricted resources as they are needed. When committed, assigned, or unassigned resources are available for use, it is the City's policy to use resources in the following order: 1) committed, 2) assigned, and 3) unassigned.

b. Minimum Fund Balance

It is the City's policy that at the end of each year, the City will maintain the unrestricted portion of the fund balance for cash flow in a range equal to 35% to 50% of the General Fund operating expenditures budgeted for next year. At December 31, 2022 this percentage was 36% and therefore the minimum fund balance was met.

11. Net position

The Statement of Net Position reports restrictions in net position for community development revenues which are used for building code enforcement, development and redevelopment activities. Telecommunication revenues are used for the administration and maintenance of telecommunication activities. Park dedication proceeds are used to create parks or park

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

improvements within a new development area. Law Enforcement is proceeds received from forfeitures generated from driving under the influence (DUI) or drug possession whose proceeds are restricted for specific law enforcement uses. Opioid revenues are settlement funds that are restricted for the prevention of opioid addiction throughout the community. Debt service is to pay for future debt service obligations, while tax increment revenues are used to pay for costs associated with the development within a tax increment district. Minnesota law governs park dedication, debt service, tax increment and law enforcement use. Community development and telecommunication uses are governed by other third-party entities

Note 2 RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

- A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position

The governmental fund balance sheet includes reconciliation between fund balance – total governmental funds and net position - governmental activities as reported in the government-wide of net position. Elements of that reconciliation are detailed as follows:

Long-term liabilities:	
Bonds payable	(\$14,085,000)
Premium on bonds payable	(823,022)
Bond interest payable	(142,534)
Net OPEB obligation	(1,632,837)
Net Pension liability	(37,357,698)
Compensated absences	(2,225,133)
Deferred inflows of resources	<u>1,653,320</u>
Net change due to long-term liabilities	<u>(\$54,612,904)</u>
Other long-term assets:	
Net pension obligation - fire relief	\$2,469,835
Deferred outflows of resources	24,944,818
Capital assets - net of depreciation	<u>141,097,883</u>
Net change in other long-term assets	<u>\$168,512,536</u>

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

- B. Explanation of certain differences between the governmental fund statement of revenues, expenditures and changes in fund balances and the governmental-wide statement of activities governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between net changes in fund balances-total governmental funds and change in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this difference are as follows:

Capital outlay	\$6,961,364
Capital asset contribution	
Depreciation expense	<u>(5,246,341)</u>
Net change in fund-balances-total governmental funds and change in net position of governmental activities	<u>\$1,715,023</u>

Note 3 DETAILED NOTES ON ALL FUNDS

A. Deposits and investments

1. Components of Cash and Investments

Cash and investments at year-end December 31, 2022 consist of the following:

Deposits	\$3,353,758
Investments	49,417,607
Cash on Hand	<u>41,853</u>
Total	<u>\$52,813,218</u>

Cash and investments at year-end December 31, 2022 consist of the following:

Statement of Net Positions - Government Wide	
Cash and cash equivalents	\$52,732,248
Statement of Fiduciary Net Positions	
Cash and cash equivalents - Custodial Funds	<u>80,970</u>
Total	<u>\$52,813,218</u>

In accordance with applicable Minnesota Statutes, the City maintains deposits at depository banks authorized by the City Council, including checking accounts and certificates of deposits.

The following is considered the most significant risk associated with deposits:

Custodial credit risk – In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits may be lost. Minnesota Statutes require that all deposits be protected by federal deposit insurance, corporate surety bond, or collateral. The City's deposits were fully insured and

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

collateralized at December 31, 2022. The City's investment policy has no additional deposit policies addressing custodial credit risk.

2. Deposits

As of December 31, 2022 the City's bank balances of \$3,521,540 were covered by insurance or collateral pledged and held in the City's name.

3. Investments

The City has the following investments at year-end December 31, 2022:

Investment type	Rating	Investment maturities				Total
		Less than one year	1-5 years	6-10 years	Over 10 Years	
Municipal securities	A, A+, A1, AA-, AA, AA+, Aa2, Aa3, AAA-, AAA	\$ 2,117,976	\$16,005,012	\$ 14,319,880	\$2,462,305	\$34,905,173
U.S. Agency Securities	AA+	484,015	-	423,160	-	907,175
Certificates of Deposit	NA	-	431,237	-	-	431,237
U.S. Treasuries	AAA	1,603,659	-	-	-	1,603,659
Money Market Funds	AAAmnf	11,570,363	-	-	-	11,570,363
Total		<u>\$ 15,776,013</u>	<u>\$ 16,436,249</u>	<u>\$ 14,743,040</u>	<u>\$ 2,462,305</u>	<u>\$ 49,417,607</u>

The City has the following recurring fair value measurements as of December 31, 2022:

- Municipal securities, US Agency securities and US Treasuries of \$37,416,007 are valued using inputs that are based on quoted prices for similar assets or inputs that are observable, either directly or indirectly (Level 2 inputs)
- The money market fund is an external investment pool. The fund seeks to maintain a constant net asset value (NAV) of \$1 per share. The securities held by each fund are valued on the basis of amortized cost. Shares may be redeemed without penalty on any business day.

Investments are subject to various risks, the following of which are considered the most significant:

Credit risk – Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. The City's policy to minimize credit risk includes limiting investing funds to those allowable under Minnesota Statute 118A, annually appointing all financial institutions where investments are held, and diversifying the investment portfolio. This is measured by the assignment of a rating by a nationally recognized statistical rating organization.

Custodial credit risk – For investments, this is the risk that in the event of failure of the counterparty to an investment transaction the City would not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's investment policy does not further address this risk, but the City typically limits its exposure by purchasing insured or registered investments, or by the control of who holds the securities.

Concentration risk – Concentration of credit risk is the risk of loss that may be attributed to the magnitude of a government's investment in a single issuer. The City's investment policy does not

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

limit the concentration of investments. At December 31, 2022, the City held 7.23% with Anchor Bay, MI School District and 7% with New York NY G.O.

Interest rate risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The City's investment policy does not address interest rate risk. The City holds all investments to maturity.

B. Receivables

Governmental funds report deferred inflows of resources in connection with receivables for revenues that are not considered available to liquidate liabilities of the current period. Governmental funds also defer recognition in connection with resources that are not yet available. At the end of the current fiscal year, the various components of deferred inflows reported in the governmental funds were as follows:

	Unavailable
Unavailable revenue due from other governments (Street Construction)	\$ 78,860
Unavailable revenue due from other governments (Revolving Improvements)	-
Delinquent property taxes (General)	232,881
Delinquent property taxes (Telecommunications)	778
Delinquent property taxes (Information Technology)	2,334
Delinquent property taxes (Recreation)	44,574
Delinquent property taxes (Debt service)	34,450
Delinquent property taxes (Revolving Improvements)	47,926
Delinquent property taxes (Street Construction)	16,650
Delinquent property taxes (EDA)	7,059
Delinquent special assessments (General)	6,818
Special assessments not yet due (G.O. Improvement Bonds)	50,231
Special assessments not yet due (Street Construction)	1,130,759
Deferred Lease Revenue (Revolving Improvements)	53,835
Deferred Lease Revenue (Information Technology)	890,088
Total deferred inflows for governmental funds	<u>\$ 2,597,243</u>

Significant receivable balances not expected to be collected within one year of December 31, 2022 are as follows:

	Special Assessments Receivable	Notes Receivable	Leases Receivable	Total
Major Funds:				
General	\$ 6,818	\$ -	\$ -	\$ 6,818
Community Development	-	1,271,652	-	1,271,652
Information Technology	-	-	523,092	523,092
Debt Service	50,231	-	-	50,231
Street Construction	1,130,759	-	-	1,130,759
Roseville Economic Development Authority	-	1,287,012	-	1,287,012
	<u>\$ 1,187,808</u>	<u>\$ 2,558,664</u>	<u>\$ 523,092</u>	<u>\$ 4,269,564</u>

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

Depreciation expense was charged to functions/programs of the City is follows:

Governmental activities:

General government	\$560,688
Public safety	668,969
Public works including depreciation of infrastructure	2,858,923
Recreation	<u>1,157,761</u>

Total depreciation expense - governmental activities	<u><u>\$5,246,341</u></u>
--	---------------------------

Business-type activities:

Sanitary sewer	\$450,850
Water	498,688
Golf	87,784
Storm drainage	<u>617,254</u>

Total amortization/depreciation expense - business-type activities	<u><u>\$1,654,576</u></u>
---	---------------------------

D. Construction commitments

The City has construction projects in progress as of December 31, 2022. The projects include the improvement and construction of streets, water, sewer, and storm systems. At year end the commitments with these contractors are as follows:

Project	Spent-to-Date	Remaining Commitment
Parks Renewal Project	\$2,095,214	\$96,907
Roseville-John Rose Oval Project	3,315,487	240,537
McCarrons Retaining Wall	89,759	17,671
Long Lake Lift Station	38,551	21,511
2022 Sanitary Sewer Lining Project	849,473	126,455
Upper Villa Sediment Pond	18,559	343,149

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

E. Interfund receivables, payables, and transfers

Transfers are used to 1) move revenues from the fund with collection authorization to the debt service fund as debt service principal and interest payments become due, 2) move grant funds to specific funds where the grant dollars are used (specifically American Recovery Program Act dollars), 3) move unrestricted general fund revenues to finance various programs that the government must account for in other funds in accordance with budgetary authorizations, including amounts provided as subsidies or matching funds for various grant programs. The following is a schedule of interfund transfers as of December 31, 2022:

Fund	Transfer In	Description
Transfers to General Fund from:		
Parks and Recreation	\$ 20,317	Excess fund balance per council approval
License Center	177,000	2022 Budgeted Transfer - Admin Support
ARPA Fund	43,910	Public Safety premium pay
Total General Fund	<u>241,227</u>	
Transfers to Debt Service Fund from:		
Economic Increments Construction	<u>272,931</u>	Principle, Interest, and Bond Issuance Costs
Transfers to Telecommunications Fund from:		
General Fund	<u>31,436</u>	Fund policies and operational needs
Transfers to Golf Course Fund from:		
Revolving Improvements Fund	<u>5,179</u>	Netting purchase that was budgeted in the CIP
Transfers to Roseville Economic Development Authority from:		
ARPA Fund	<u>12,526</u>	Coverage of part-time employee payroll expenses
	<u>\$ 563,299</u>	

Total transfers in/out are created to assist in financing various activities and/or projects.

The Street Construction fund loaned \$1.5 million to the Revolving Improvements fund in 2018 to purchase the 2719 Lexington Avenue Shopping Center for potential expansion of the civic campus. Sale proceeds from the sale of an old fire station will be used to repay the Street Construction fund. The Economic Development Authority loaned \$10,000 to the Economic Increments Construction fund to start a new tax increment financing district.

F. Tax Increment Financing

The City has entered into seven Tax Increment Financing agreements, which meet the criteria for disclosure under Governmental Accounting Standards Board Statement No. 77 Tax Abatement Disclosures. The City's authority to enter into these agreements comes from Minnesota Statute 469. The City entered into these agreements for the purpose of economic development.

Under the agreements, the City and developer agree on an amount of development costs to be reimbursed to the developer by the City through tax revenues from the additional taxable value of the property generated by the development (tax increment). A "pay-as-you-go" note is established for this amount, on which the City makes payments for a fixed period of time with available tax increment revenue after deducting for certain administrative costs.

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

During the year ended December 31, 2022, the City generated \$1,400,327 in tax increment revenue and made \$500,356 in payments to developers.

G. Leases

1. Right to Use Leased Assets

The City has recorded 2 right to use leased assets for a vehicle and building space. The related leases are discussed in Long Term Liabilities footnote disclosure.

The City of Roseville has entered into lease agreements to lease various assets. Lease agreements that qualify as other than short-term leases under GASB 87 have been recorded at the present value of the future minimum lease payments as of the date of lease commencement.

The City entered into an agreement which commenced January 1, 2022 to lease golf carts. The lease requires 60 bi-monthly lease payments of \$1,875. The lease liability is measured at discount rate of 2% which is the City's incremental borrowing rate. As a result of the lease, the City has recorded a right to use asset with the net book value of \$42,718 on December 31, 2022.

This City entered into an agreement which commenced January 1, 2022 to lease a storage unit. The lease requires 24 monthly lease payments of \$4,863. The lease liability is measured at a discount rate of 2% which is the City's incremental borrowing rate. As a result of the lease, the City has recorded a right to use asset with the net book value of \$58,045 on December 31, 2022.

Right to use leased asset activity for the year ended December 31, 2022 was as follows:

	Beginning Balance as restated*	Additions	Modifications & Remeasurements	Subtractions	Ending Balance
Right to use leased assets					
Vehicles	\$ 53,397	\$ -	\$ -	\$ -	\$ 53,397
Buildings	116,091	-	-	-	116,091
Total leased assets	169,488	-	-	-	169,488
Less: accumulated amortization for:					
Vehicles	-	(10,679)	-	-	(10,679)
Buildings	-	(58,046)	-	-	(58,046)
Total accumulated amortization	-	(68,725)	-	-	(68,725)
Total right to use leased assets, net	\$ 169,488	\$ (68,725)	\$ -	\$ -	\$ 100,763

	Beginning Balance as restated*	Additions	Modifications & Remeasurements	Subtractions	End of Year	Due Within One Year
Lease Liabilities	\$ 174,244	\$ -	\$ -	\$ 66,811	\$ 107,433	\$ 70,001

*For the year ended December 31, 2022, the City implemented GASB 87. In accordance with the requirements of GASB 87, the beginning balances reflect a restatement as of January 1, 2022.

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

	For the year ended 12/31/2022
Amortization expense by asset class:	
Vehicles	\$ 10,679
Buildings	58,046
Total amortization expense	68,725
Variable lease expense	-
Interest on lease liabilities	2,798
Other lease expense	-
Total expense recognized in relation to leased assets	\$ 71,523

Principal and interest requirements to maturity for the lease liabilities as of December 31, 2022 were as follows:

Vehicle Lease Liability				
Year Ending	Principal Payments		Interest Payments	Total
2023	\$ 10,464		\$ 786	\$ 11,250
2024	10,675		575	11,250
2025	10,891		359	11,250
2026	11,110		140	11,250
	\$ 43,140		\$ 1,860	\$ 45,000

Building Lease Liability

2023	59,537		647	60,184
	\$ 59,537		\$ 647	\$ 60,184

2. Lease Receivable

The City leases a portion of its water towers for cellular tower antenna sites. These leases are non-cancelable with an automatic renewal period at the lessee's option. The City of Roseville considers these options being exercised to be greater than 50%. The agreements call for annual lease payments for \$13,000-\$51,000 with annual increases based on the contract agreement. The lease receivable is measured at the present value of the future minimum lease payments expected to be received during the lease term at a discount rate of 2% which is based on the City's borrowing rate over the same time periods.

The following table shows additional details of the lease contracts:

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

Location	Lessee	Annual Lease Adjustment Factor	Expiration Date	Renewal Options
1901 Alta Vista	AT&T	3% Increase on Aug 1	08/31/26	5 year terms

2660 Civic Center Dr (North Tower)	AT&T	3% Increase on Sep 1	12/31/24	5 year terms

The City leases suite space in the City owed shopping center located at 2719 Lexington Avenue to Huntington Learning Center. This lease is a non-cancelable lease for a period of 3 years, with two renewal periods of one year at the lessee's option. The City considers the likelihood of these options being exercised to be greater than 50%. The agreement calls for monthly lease payments of \$5,275 with annual increases based on the contract agreement. Terms of each lease are as follows:

Lessee	Annual Lease Adjustment Factor	Expiration Date
Huntington Learning Center	3% Increase on Nov 1	10/31/2023

At December 31, 2022 the entity recorded \$943,923 in lease receivables and deferred inflows of resources for these arrangements.

Total revenue recognized in relation to these leases is as follows:

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

	For the year ended 12/31/2022
Amortization of lease-related deferred inflows	
Antenna leases	\$ 433,979
Other leases	61,865
Total revenue recognized resulting from deferred inflow amortization	495,844
Variable lease revenue	-
Interest revenue	25,255
Other lease revenues	-
Total revenue recognized in relation to leased assets	\$ 521,099

H. Long-term debt

The City issues general obligation debt to provide for financing construction of major capital facilities and street improvements. Debt service for street improvements is covered by special assessments against benefited properties with any shortfalls being paid from general taxes.

General obligation bonds are direct obligations and pledge the full faith and credit of the government. The original amount of general obligation bonds for the issues listed below is \$37,240,000.

General obligation debt currently outstanding is as follows:

	Net Interest	
Purpose	Rates	Amount
Governmental activities	.85% - 5.6%	\$14,085,000
Business-Type activities	1.0% - 2.0%	2,335,000

Annual debt service requirements to maturity for general obligation debt are as follows:

	Governmental activities		Business-Type activities	
Years ending December 31	Principal	Interest	Principal	Interest
2023	\$ 2,110,000	\$ 367,269	\$ 240,000	\$ 36,100
2024	2,145,000	299,871	245,000	31,250
2025	2,215,000	236,621	250,000	26,300
2026	2,155,000	174,556	255,000	21,250
2027	2,230,000	115,606	260,000	16,100
2028-2032	3,230,000	112,953	1,085,000	23,200
Total	\$14,085,000	\$1,306,877	\$2,335,000	\$154,200

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

a. CURRENT REFUNDING

On December 29, 2020 the City issued \$4,775,000 in General Obligation Refunding Bonds, Series 2020A. The proceeds were used to current refund the City's General Obligation Bonds, Series 2011A. The City will realize a savings in interest costs of \$417,806 over the life of the bonds. The net present value cash flow savings of the transaction was \$410,030.

Changes in long-term liabilities

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental Activities					
Bonds payable					
General Obligation Bonds	\$13,700,000	\$ -	\$1,820,000	\$11,880,000	\$1,910,000

Business type activities Long-Term Liabilities	<u>\$2,820,002</u>	<u>\$105,261</u>	<u>\$349,841</u>	<u>\$2,575,422</u>	<u>\$267,455</u>

For governmental activities, other post-employment benefits are liquidated through the general fund. For compensated absences, payments are made from the fund to which the employee is assigned at the time employment ceases. In addition to the general fund, recreation, community development, and all non-major special revenue funds are involved in paying compensated absences. For Insurance claims payables, payments are made from the Worker's Compensation and Risk Management Funds.

From time to time, the City has issued Industrial Revenue Bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. Neither the City, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of December 31, 2022, there were seven series of Housing and Industrial Revenue Bonds outstanding, with an aggregate principal amount payable of \$74.1 million.

Note 4 OTHER INFORMATION

A. Risk management

The City is exposed to various risks of loss related to torts; theft of damage to, and the destruction of assets; errors and omissions; injuries to employees and natural disasters. During the fiscal years of 1980 and 1987, the City established a Workers' Compensation Fund and a Risk Management Fund, respectively (internal service funds) to account for and finance its uninsured risks of loss. For the year 2022, the Worker's Compensation Fund provided coverage up to a maximum of \$500,000 for each occurrence. The City purchases excess loss coverage from the Workers' Compensation Reinsurance Association, a nonprofit organization established by Minnesota State Statutes.

The Risk Management Fund provides comprehensive general liability and comprehensive automotive liability up to the statutory maximum of \$2,000,000. The City retains the risk of the first \$100,000 of each occurrence with an annual maximum exposure of \$200,000. Liabilities of the fund are reported if it is probable that a loss has occurred, and amount of the loss can be reasonably estimated.

Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims.

Estimated recoveries, for example from salvage or subrogation, are another component of the claim's liability estimate. The City purchased commercial insurance for claims in excess of coverage provided by the Risk Management Fund and for all other risks of loss. Settled claims have not exceeded this coverage in any of the past three fiscal years. There were no significant reductions in the City's insurance coverage in 2022. Enterprise fund charges and the property tax levy are based on a management estimate of claims history and the amount necessary to maintain catastrophic reserves. The reserves as of December 31, 2022, were \$634,897.48 and \$766,009 for the Workers' Compensation Fund and Risk Management Fund, respectively. The claims liability of \$33,016 and \$34,075, respectively, reported in both funds at December 31, 2022 are based on the requirements of Governmental Accounting Standards Board Statement No. 10. This statement requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated (IBNR). Changes in the funds' claims liability amount in fiscal 2021 and 2022 were:

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

Worker's Compensation Fund				
Year	Beginning of Fiscal Year Liability	Current Year Claims and Changes in estimates	Claims Payment	Ending of Fiscal Year Liability
2021	\$ 167,937	\$ 124,402	\$ 188,797	\$ 103,542

2021	\$ 47,000	\$ 191,054	\$ 19,415	\$ 218,639
2022	\$ 218,639	\$ (66,967)	\$ 117,597	\$ 34,075

B. Contingent liabilities

The City had the usual and customary types of miscellaneous claims pending at year-end mostly of a minor nature, and usually all covered by insurance carried for that purpose or the City has reserved for settlement. The City also carries personal injury insurance against suits for false arrest, libel, slander, violation of privacy, wrongful entry, etc. which can arise from enforcement of the city code and general laws. Although the outcome of these lawsuits is not presently determinable, in the opinion of the government's legal counsel the resolution of these matter will not have a material adverse effect on the financial condition of the government.

C. Employee retirement systems and pension plans

1. Public Employees' Retirement Association

A. Plan Description

The City participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

1. General Employees Retirement Fund (GERF)

All full-time (with the exception of employees covered by PEPFF) and certain part-time employees of the City are covered by the General Employees Retirement Fund (GERF). GERF members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

2. Public Employees Police and Fire Fund (PEPFF)

The PEPFF, originally established for police officers and firefighters not covered by a local relief association, now covers all police officers and firefighters hired since 1980. Effective July 1, 1999, the PEPFF also covers police officers and firefighters belonging to local relief associations that elected to merge with and transfer assets and administration to PERA.

B. Benefits Provided

PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state legislature. Vested, terminated employees who are entitled to benefits but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service.

1. GERS Benefits

Benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated members. Members hired prior to July 1, 1989 receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated members is 1.2% for each of the first ten years of service and 1.7% for each additional year. Under Method 2, the accrual rate for Coordinated Plan members is 1.7% for all years of service. For members hired prior to July 1, 1989 a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

Benefit increases are provided to benefit recipients each January. The postretirement increase is equal to 50% of the cost-of-living adjustment (COLA) announced by the SSA, with a minimum increase of at least 1% and a maximum of 1.5%. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. Recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase. For members retiring on January 1, 2024 or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

2. PEPFF Benefits

Benefits for PEPFF members first hired after June 30, 2010 but before July 1, 2014 vest on a prorated basis from 50% after five years up to 100% after ten years of credited service. Benefits for PEPFF members first hired after June 30, 2014 vest on a prorated basis from 50% after ten years up to 100% after twenty years of credited service. The annuity accrual rate is 3% of average salary for each year of service. For PEPFF members who were first hired prior to July 1, 1989, a full annuity is available when age plus years of service equal at least 90.

Benefit increases are provided to benefit recipients each January. The postretirement increase is fixed at 1%. Recipients that have been receiving the annuity or benefit for at least 36 months as of the June 30 before the effective date of the increase will receive the full increase. Recipients receiving the annuity or benefit for at least 25 months but less than 36 months as of the June 30 before the effective date of the increase will receive a reduced prorated increase.

C. Contributions

Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state legislature.

1. GERF Contributions

Coordinated Plan members were required to contribute 6.50% of their annual covered salary in fiscal year 2022 and the City was required to contribute 7.50% for Coordinated Plan members. The City's contributions to the GERF for the year ended December 31, 2022 were \$878,830. The City's contributions were equal to the required contributions as set by state statute.

2. PEPFF Contributions

Police and Fire Plan members were required to contribute 11.80% of their annual covered salary in fiscal year 2022 and the City was required to contribute 17.70% for Police and Fire Plan members. The City's contributions to the PEPFF for the year ended December 31, 2022 were \$1,381,677. The City's contributions were equal to the required contributions as set by state statute.

D. Pension Costs

1. GERF Pension Costs

At December 31, 2022, the City reported a liability of \$12,054,290 for its proportionate share of GERP's net pension liability. The City's net pension liability reflected a reduction due to the State of Minnesota's contribution of \$16 million. The State of Minnesota is considered a non-employer contributing entity and the state's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the City totaled \$353,256.

The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportionate share of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2021 through June 30, 2022, relative to the total employer contributions received from all of PERA's participating employers. The City's proportionate share was 0.1522% at the end of the measurement period and 0.1458% for the beginning of the period.

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

City's proportionate share of the net pension liability	\$12,054,290
State of Minnesota's proportionate share of the net pension liability associated with the City	<u>353,256</u>
Total	<u>\$12,407,546</u>

For the year ended December 31, 2022, the City recognized pension expense of \$1,657,249 for its proportionate share of the GERS's pension expense. In addition, the City recognized an additional \$52,784 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$16 million to the GERS.

At December 31, 2022, the City reported its proportionate share of the GERS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$100,686	(\$129,010)
Changes in actuarial assumptions	2,728,104	(50,058)
Difference between projected and actual investment earnings	215,678	-
Changes in proportion	401,188	(169,086)
Contributions paid to PERA subsequent to the measurement date	441,908	-
Total	<u>\$3,887,564</u>	<u>(\$348,154)</u>

The \$441,908 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2023. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended December 31,	Pension Expense
2023	\$1,186,398
2024	1,112,100
2025	(291,127)
2026	1,090,131
2027	-
Thereafter	-

2. PEPFF Pension Costs

At December 31, 2022, the City reported a liability of \$26,927,732 for its proportionate share of the PEPFF's net pension liability. The net pension liability was measured as of June 30, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportionate share of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2021 through June 30, 2022, relative to the total employer contributions received from all of PERA's participating employers. The City's proportionate share was 0.6188% at the end of the measurement period and 0.5472% for the beginning of the period.

The State of Minnesota also contributed \$18 million to PEPFF during the plan fiscal year ended June 30, 2022. The contribution consisted of \$9 million in direct state aid that does meet the definition of a special funding situation and \$9 million in supplemental state aid that does not meet the definition of a special funding situation. The direct state aid was paid on October 1, 2021. Thereafter, by October 1 of each year, the state will pay \$9 million to the PEPFF until full funding is reached or July 1, 2048, whichever is earlier. The \$9 million in supplemental state aid will continue until the fund is 90% funded, or until the State Patrol Plan (administered by the Minnesota State Retirement System) is 90% funded, whichever occurs later.

The State of Minnesota is included as a non-employer contributing entity in the PEPFF Schedule of Employer Allocations and Schedule of Pension Amounts by Employer, Current Reporting Period Only (pension allocation schedules) for the \$9 million in direct state aid. PEPFF employers need to recognize their proportionate share of the State of Minnesota's pension expense (and grant revenue) under GASB 68 special funding situation accounting and financial reporting requirements. For the year ended December 31, 2022, the City recognized pension expense of \$1,752,698 for its proportionate share of the Police and Fire Plan's pension expense. The City recognized an additional \$228,170 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$9 million to the PEPFF.

The State of Minnesota is not included as a non-employer contributing entity in the Police and Fire Pension Plan pension allocation schedules for the \$9 million in supplemental state aid. The City recognized \$55,692 for the year ended December 31, 2022 as revenue and an offsetting reduction of net pension liability for its proportionate share of the State of Minnesota's on-behalf contributions to the Police and Fire Fund.

At December 31, 2022, the City reported its proportionate share of the PEPFF's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$1,653,213	\$ -
Changes in actuarial assumptions	15,851,116	(174,249)
Difference between projected and actual investment earnings	390,504	-
Changes in proportion	1,748,588	(244,120)
Contributions paid to PERA subsequent to the measurement date	693,740	-
Total	<u>\$20,337,161</u>	<u>(\$418,369)</u>

The \$693,740 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2023. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended December 31,</u>	<u>Pension Expense</u>
2023	\$4,428,025
2024	3,622,316
2025	3,173,478
2026	5,625,060
2027	2,376,173
Thereafter	-

The net pension liability will be liquidated by the general, water, sewer, storm, solid waste and golf funds.

E. Actuarial Assumptions

The total pension liability in the June 30, 2022 actuarial valuation was determined using an individual entry-age normal actuarial cost method and the following actuarial assumptions:

Inflation	2.25% per year
Investment Rate of Return	6.50%

The long-term investment rate of return is based on a review of inflation and investment return assumptions from a number of national investment consulting firms. The review provided a range of investment return rates deemed to be reasonable by the actuary. An investment return of 6.50% was deemed to be within that range of reasonableness for financial reporting purposes.

Benefit increases after retirement are assumed to be 1.25% for the GERS. The PEPFF benefit increase is fixed at 1.00% per year and that increase was used in the valuation.

Salary growth assumptions in the GERS range in annual increments from 10.25% after one year of service to 3.0% after 27 years of service. In the PEPFF, salary growth assumptions range from 11.75% after one year of service to 3.0% after 24 years of service.

Mortality rates for GERS were based on the Pub-2010 General Employee Mortality Table. Mortality rates for PEPFF were based on the Pub-2010 Public Safety Employee Mortality tables. The tables are adjusted slightly to fit PERA's experience.

Actuarial assumptions for GERS are reviewed every four years. The most recent four-year experience study for GERS was completed in 2019. The assumption changes were adopted by the Board and become effective with the July 1, 2020 actuarial valuation. The most recent four-year experience study for PEPFF was completed in 2020 and adopted by the Board and became effective with the July 1, 2021 actuarial valuation.

The following changes in actuarial assumptions and plan provisions occurred in 2022:

General Employees Fund

Changes in Actuarial Assumptions:

- The mortality improvement scale was changed from Scale MP-2020 to Scale MP-2021.

Police and Fire Fund

Changes in Actuarial Assumptions:

- The single discount rate was changed from 6.50% to 5.40%.
- The mortality improvement scale was changed from Scale MP-2020 to Scale MP-2021.

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equity	33.5%	5.10%
International equity	16.5%	5.30%
Fixed income	25%	0.75%
Private markets	25%	5.90%
Total	100%	

F. Discount Rate

The discount rate for the GERF used to measure the total pension liability in 2022 was 6.5%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net position of the GERF was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

In the PEPFF, the fiduciary net position was projected to be available to make all projected future benefit payments of current plan members through June 30, 2060. Beginning in fiscal year ended June 30, 2061, projected benefit payments exceed the funds' projected fiduciary net position. Benefit payments projected after were discounted at the municipal bond rate of 3.69% (based on the weekly rate closest to but not later than the measurement date of the Fidelity "20-Year Municipal GO AA Index"). The resulting equivalent single discount rate of 5.40% for the PEPFF was determined to give approximately the same present value of projected benefits when applied to all years of projected benefits as the present value of projected benefits using 6.5% applied to all years of projected benefits through the point of asset depletion and 3.69% thereafter.

G. Pension Liability Sensitivity

The following presents the City's proportionate share of the net pension liability, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate one percentage point lower or one percentage point higher than the current discount rate:

	<u>1% Decrease in Discount Rate (5.5%)</u>	<u>Discount Rate (6.5%)</u>	<u>1% Increase in Discount Rate (7.5%)</u>
Proportionate share of the GERF net pension liability	\$19,040,383	\$12,054,290	\$6,324,616
	<u>1% Decrease in Discount Rate (4.4%)</u>	<u>Discount Rate (5.4%)</u>	<u>1% Increase in Discount Rate (6.4%)</u>
Proportionate share of the PEPFF net pension liability	\$40,751,668	\$26,927,732	\$15,751,907

H. Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained at www.mnpera.org.

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

I. PENSION EXPENSE

Pension expense recognized by the City for the year ended December 31, 2022 is as follows:

GERF	\$1,710,033
PEPFF	1,980,868
Fire Relief	<u>621,476</u>
Total	<u>\$4,312,377</u>

2. Defined Benefit Pension Plan – Volunteer Fire Fighter's Relief Association

A. Plan Description

The Roseville Firefighter Relief Association is the administrator of a single employer defined benefit pension plan established to provide benefits for members of the City of Roseville Fire Department per *Minnesota State Statutes*. The Association issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Roseville Firefighters' Relief Association, 2701 N. Lexington Ave., Roseville, MN 55113.

B. Benefits Provided

Volunteer firefighters of the City are members of the Roseville Firefighter Relief Association. Full retirement benefits are payable to members who have reached age 50 and have completed 15 years of service for monthly service pension, or 10 years of service for lump sum service pension. Partial benefits are payable to members who have reached 50 and have completed 10 years of service. Disability benefits, widow, and children's survivor benefits are also payable to members or their beneficiaries based upon requirements set forth in the bylaws. These benefit provisions and all other requirements are consistent with enabling state statutes.

C. Employees Covered by Benefit Terms

At December 31, 2022, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	67
Inactive employees entitled to but not yet receiving benefits	16
Active employees	<u>5</u>
Total	<u>88</u>

D. Contributions

Minnesota Statutes Chapter 424A.092 specifies minimum support rates required on an annual basis. The minimum support rates from the municipality and from State aids are determined as the amount required to meet the normal cost plus amortizing any existing prior service costs over a ten year period. The City's obligation is the financial requirement for the year less state aids. Any additional payments by the City shall be used to amortize the unfunded liability of the relief association. The Association is comprised of volunteers; therefore, there are no payroll expenditures (i.e. there are no covered payroll percentage calculations). During the year, the City

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

recognized as revenue and as an expenditure on behalf payment of \$ 48,815 made by the State of Minnesota for the Relief Association.

E. Net Pension Liability

The City's net pension liability was measured as of December 31, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial assumptions:

The total pension liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.50% per year
Discount rate	6.00% percent average, including inflation
Investment Rate of Return	6.00% percent , net of pension plan investment expense including inflation

The value of death benefits is similar to the value of the retirement pension. Because of low retirement ages, the plan assumes no pre-retirement mortality. Post-retirement mortality does not apply as the benefit structure and form of payment do not reflect lifetime benefits.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These asset class estimates are combined to produce the portfolio long-term expected rate of return by weighting the expected future real rates of return by the current asset allocation percentage (or target allocation, if available) and by adding expected inflation. All results are then rounded to the nearest quarter percent and are summarized in the following table.

Asset Class	Allocation at Measurement Date	Long-Term Expected Real Rate of Return	Long-Term Expected Nominal Rate of Return
Domestic equity	73.90%	4.10%	6.60%
International equity	0.00%	4.64%	7.14%
Fixed income	25.46%	1.05%	3.55%
Real estate and alternatives	0.00%	3.54%	6.04%
Cash and equivalents	0.64%	-0.45%	2.05%
Total	100%		6.10%
Reduced for assumed investment expense			-0.10%
Net assumed investment return (rounded to quarter percent)			6.00%

Discount rate:

The discount rate used to measure the total pension liability was 6.00%. Assets were projected using expected benefit payments and expected asset returns. Expected benefit payments by year

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

were discounted using the expected asset return assumption for years in which the assets were sufficient to pay all benefit payments. Any remaining benefit payments after the trust fund is exhausted are discounted at the municipal bond rate. The equivalent single rate is the discount rate.

F. Change in the Net Pension Liability

	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balances at January 1, 2022	<u>\$ 9,857,914</u>	<u>\$ 16,896,050</u>	<u>\$ (7,038,136)</u>
Changes for the year			
Service cost	23,829	-	23,829
Interest	563,444	-	563,444
Differences between expected and actual experience	110,275	-	110,275
Changes in assumptions	14,290	-	14,290
Contributions - state and local	-	48,815	(48,815)
Change of benefit terms	813,363	-	813,363
Net investment income	-	(3,060,562)	3,060,562
Benefit payments, including refunds of employee contributions	(982,017)	(982,017)	-
Administrative expense	-	(31,353)	31,353
Other charges	-	-	-
Net Charges	<u>\$ 543,184</u>	<u>\$ (4,025,117)</u>	<u>\$ 4,568,301</u>
Balances at December 31, 2022	<u>\$ 10,401,098</u>	<u>\$ 12,870,933</u>	<u>\$ (2,469,835)</u>

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability of the City, calculated using the discount rate of 6%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower 5% or 1-percentage-point higher 7% than the current rate:

	1% Decrease 5.00%	Current Discount Rate 6.00%	1% Increase 7.00%
Net pension liability (asset)	<u>\$ (1,426,948)</u>	<u>\$ (2,469,835)</u>	<u>\$ (3,349,229)</u>

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued relief association financial report.

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

G. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended December 31, 2022, the City recognized an increase of pension expense of \$621,476. At December 31, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual liability	\$ -	\$ -
Changes in actuarial assumptions	-	-
Net difference between projected and actual investment earnings	1,232,382	-
	<u>\$ 1,232,382</u>	<u>\$ -</u>

Amounts reported as deferred (inflows) outflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31,	
2023	\$ (217,476)
2024	165,527
2025	476,037
2026	<u>808,294</u>
Total	<u>\$ 1,232,382</u>

Note 5 OTHER POST-EMPLOYMENT BENEFITS

A. Plan Description

In addition to providing the pension benefits described in Note 4, the City provides post-employment health care benefits (as defined in paragraph B) for retired employees and police and firefighters disabled in the line of duty, through a single employer defined benefit plan. The term Plan refers to the City's requirement by State Statute to provide retirees with access to health insurance. The OPEB plan is by the City. The authority to provide these benefits is established in Minnesota Statutes Sections 471.61 Subd. 2a, and 299A.465. The benefits, benefit levels, employee contributions and employer contributions are governed by the City and can be amended by the City through its personnel manual and collective bargaining agreements with employee groups. The Plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The Plan does not issue a separate financial report.

B. Benefits Provided

Retirees

The City is required by State Statute to allow retirees to continue participation in the City's group health insurance plan if the individual terminates service with the City through service retirement or disability retirement. Employees who satisfy the rule of 90 or attain age 55 and have completed 10 years of service at termination can immediately commence medical benefits. Retirees may obtain dependent coverage while the participating retiree is under age 65. Covered spouses may continue coverage after the retiree's death. The surviving spouse of an active employee may continue coverage in the group health insurance plan after the employee's death. All health care coverage is provided through the City's group health insurance plans. The retiree is required to pay 100% of their premium cost for the City-sponsored group health insurance plan in which they participate. The premium is a blended rate determined on the entire active and retiree population. Since the projected claims costs for retirees exceed the blended premium paid by retirees, the retirees are receiving an implicit rate subsidy (benefit). The coverage levels are the same as those afforded to active employees. Upon a retiree reaching age 65 years of age, Medicare becomes the primary insurer and the City's plan becomes secondary.

Disabled police and firefighter

The City continues to pay the employer's contribution toward health coverage for Police or Firefighters disabled in the line of duty per Minnesota Statute 299A.465, until age 65. Dependent coverage is included, if the dependents were covered at the time of the disability. The January 1, 2022 to December 31, 2022 monthly premiums paid for Police or Firefighters disabled in the line of duty are:

<u>Plan</u>	<u>Single</u>	<u>Two Person</u>	<u>Family</u>
Health Partners National One	\$721	\$1,403	\$1,965
Health Partners Empower High Deductible	\$520	\$1,021	\$1,409

C. Participants

As of the actuarial valuation dated January 1, 2022, participants consisted of:

Retirees and beneficiaries currently purchasing health insurance through the City	10
Disabled police and firefighters	2
Active Employees	<u>196</u>
Total	<u><u>208</u></u>

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

D. Total OPEB Liability and Changes in Total OPEB Liability

The City's total OPEB liability of \$1,758,292 was measured as of January 1, 2022 and was determined by an actuarial valuation dated January 1, 2022. Changes in the total OPEB liability during 2022 were:

Balances at January 1, 2022	\$1,668,186
Changes for the year	
Service cost	139,534
Interest	35,311
Plan changes	-
Differences between expected and actual experience	-
Changes in assumptions	-
Benefit payments	<u>(84,739)</u>
Net changes	<u>90,106</u>
Balance at December 31, 2022	<u><u>\$1,758,292</u></u>

There were no plan changes since the measurement date of January 1, 2022.

E. Actuarial Assumptions and Other Inputs

The total liability in the actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.00%
Salary increases	Service Graded Table
Discount rate	2.00%
20-year municipal bond yield	2.00%
Medical cost trend rates	6.25% in 2022 grading to 5% over 5 years and then 4% over the next 48 years

CITY OF ROSEVILLE, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

Salary Increase Rates

	Public Safety	Other		Public Safety	Other
Years of	Salary	Salary	Years of	Salary	Salary
Service	Increase	Increase	Service	Increase	Increase
1	12.25%	10.25%	14	3.95%	3.70%
2	10.50%	7.25%	15	3.85%	3.65%
3	8.75%	6.00%	16	3.75%	3.60%
4	7.75%	5.50%	17	3.75%	3.50%
5	6.25%	5.00%	18	3.75%	3.40%
6	5.75%	4.70%	19	3.75%	3.40%
7	5.25%	4.50%	20	3.75%	3.40%
8	5.00%	4.40%	21	3.65%	3.30%
9	4.74%	4.30%	22	3.55%	3.30%
10	4.50%	4.20%	23	3.45%	3.30%
11	4.25%	4.00%	24 or 25	3.35%	3.20%
12	4.15%	3.90%	26	3.25%	3.10%
13	4.05%	3.80%	27 or More	3.25%	3.00%

Since the plan is funded on a pay-as-you-go basis, both the discount rate and the investment rate of return was based on published rate information for 20-year, tax exempt, and municipal bonds as of the measurement date.

The mortality tables were updated from the RP-2014 Mortality Tables (Blue Collar for Public Safety, White Collar for Others) with MP-2018 Generational Improvement Scale to the Pub-2010 Public Retirement Plans Headcount-Weighted Mortality Tables (General, Safety) with MP-2020 Generational Improvement Scale.

The salary increase rates were changed in 2021 from a flat 3.00% per year for all employees to rates which vary by service and contract group.

The actuarial assumptions used in the January 1, 2022 valuation are similar to those used to value pension liabilities for Minnesota public employees. The state pension plans base their assumptions on periodic experience studies.

Changes in assumptions and other inputs since the prior measurements date reflect change in 2021 for the discount rate from 2.90% to 2.00%, 20-year municipal bond yield from 2.90% to 2.00% and health care trend rates, the mortality table, and the retirement and withdrawal tables were updated.

F. Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is 1% lower (1.00%) or 1% higher (3.00%) than the current discount rate:

	1% Decrease (1.00%)	Discount Rate (2.00%)	1% Increase (3.00%)
Total OPEB liability	\$1,895,305	\$1,758,292	\$1,630,063

G. Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the total OPEB liability of the City, as well as what the City's total liability would be if it were calculated using healthcare cost trend rates that are 1% lower (5.50% decreasing to 4.00% then 3.00%) or 1% higher (7.50% decreasing to 6.00% then 5.00%) than the current healthcare cost trend rates:

	1% Decrease	Current Healthcare Cost Trend Rates	1% Increase
Total OPEB liability	\$1,552,166	\$1,758,292	\$2,004,934

Note 6 GASB STATEMENTS ISSUED BUT NOT YET IMPLEMENTED

The Governmental Accounting Standards Board (GASB) recently approved the following statements which were not implemented for these financial statements:

Statement No. 94 *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The provisions of this Statement are effective for reporting periods beginning after June 15, 2022.

Statement No. 96 *Subscription – Based Information Technology Arrangements*. The provisions of this Statement are effective for reporting periods beginning after June 15, 2022.

Statement No. 99 *Omnibus 2022*. The provisions of this Statement contain multiple effective dates, the first being for reporting periods beginning after June 15, 2022.

Statement No. 100 *Accounting Changes and Error Corrections – an amendment of GASB Statement No. 62*. The provisions of this Statement are effective for reporting periods beginning after June 15, 2023.

Statement No. 101 *Compensated Absences*. The provisions of this Statement are effective for reporting periods beginning after June 15, 2023.

The effect these standards may have on future financial statements is not determinable at this time, but it is expected that Statement No. 96 may have a material impact.

Note 7 SPECIAL ITEM DISCLOSURE

Transfer of Operations

The City of Roseville provided information technology (IT) services to 44 other local government agencies which started in 1999 and since that time has grown in participation. The City decided it was time to transform this arrangement into a joint powers authority. The joint powers authority established the North East Metropolitan Area Municipal Internetworking Collaborative to be known as “Metro-INET” (MIJPA) effective January 1, 2021. The transition plan recognized that 2021 would be a transition year to establish the MIJPA Board and to hire the MIJPA Executive Director. In 2022, all assets and personnel were assigned to the MIJPA.

The City implemented the Provisions of Governmental Accounting Standards Board Statement No. 68 for the year ended December 31, 2015. The schedules within the Supplementary Information Section required a ten year presentation, but does not require retroactive reporting. Information prior to 2014 is not available.

*No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 75 to pay related benefits.

The notes to the required supplementary information are an integral part of this statement.

CITY OF ROSEVILLE, MINNESOTA
REQUIRED SUPPLEMENTARY INFORMATION
NOTES TO RSI
December 31, 2022

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for the governmental funds classified as the general fund and special revenue funds. No budgets are prepared for other governmental funds which include the debt service and capital projects. All annual appropriations lapse at fiscal year-end.

On or before mid-May of each year, all departments and agencies of the City submit requests for appropriations to the City's manager so that a budget may be prepared. Before September 15, the proposed budget is presented to the city council for review and approval. By September 15, the proposed budget and tax levy must be submitted to the county auditor. The Council holds public hearings and a final budget and tax levy must be prepared, adopted and submitted to the county auditor, no later than December 28.

The appropriated budget is prepared by fund, function and department. The City's department heads may make transfers of appropriations within a fund with approval of the City's manager, without Council approval. Transfers of appropriations between funds require the approval of the Council. The legal level of budgetary control (i.e. the level at which expenditures may not legally exceed appropriations) is at the fund level.

Note A LEGAL COMPLIANCE – BUDGETS

The General Fund budget is legally adopted on a basis consistent with accounting principles generally accepted in the United States of America. The legal level of budgetary control is at the department level for the General Fund and the fund level for certain Special Revenue Funds.

Expenditures occurred in excess of appropriations in the following funds:

- General fund exceeded the budget by \$424,979.
- Information technology fund exceeded the budget by \$3,520,897. However, actual revenue exceeded the budget by \$3,876,906.
- Telecommunications fund exceeded the budget by \$15,365.
- Charitable gambling fund exceeded the budget by \$39,579. However, this was partially offset by actual revenue exceeding the budget by \$35,628.
- Roseville Economic Development Authority fund exceeded the budget by \$2,337,374. However, this was partially offset by actual revenue exceeding the budget by \$1,982,132.

Note B PENSION INFORMATION

PERA – General Employees Retirement Fund

2022 Changes in Actuarial Assumptions:

- The mortality improvement scale was changed from Scale MP-2020 to Scale MP-2021.

2021 Changes in Actuarial Assumptions:

- The investment return and single discount rates were changed from 7.50% to 6.50% for financial reporting purposes.
- The mortality improvement scale was changed from Scale MP-2019 to Scale MP-2020.

2020 Changes in Actuarial Assumptions:

- The price inflation assumption was decreased from 2.50% to 2.25%.
- The payroll growth assumption was decreased from 3.25% to 3.00%.

CITY OF ROSEVILLE, MINNESOTA
REQUIRED SUPPLEMENTARY INFORMATION
NOTES TO RSI
December 31, 2022

- Assumed salary increase rates were decreased 0.25% and assumed rates of retirement were changed resulting in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements. Assumed rates of termination and disability were also changed.
- Base mortality tables were changed from RP-2014 tables to Pub-2010 tables, with adjustments.
- The mortality improvement scale was changed from Scale MP-2018 to Scale MP-2019.
- The spouse age difference was changed from two years older for females to one year older.
- The assumed number of married male new retirees electing the 100% Joint & Survivor option changed from 35% to 45%. The assumed number of married female new retirees electing the 100% Joint & Survivor option changed from 15% to 30%. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly.

2020 Changes in Plan Provisions:

- Augmentation for current privatized members was reduced to 2.0% for the period July 1, 2020 through December 31, 2023 and 0.0% after. Augmentation was eliminated for privatizations occurring after June 30, 2020.

2019 Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2017 to MP-2018.

2019 Changes in the Plan Provisions:

- The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The State's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

2018 Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed benefit increase was changed from 1.00% per year through 2044 and 2.50% per year thereafter to 1.25% per year.

2017 Changes in Actuarial Assumptions:

- The Combined Service Annuity (CSA) loads were changed from 0.8% for active members and 60% for vested and non-vested deferred members. The revised CSA loads are now 0.0% for active member liability, 15.0% for vested deferred member liability and 3.0% for non-vested deferred member liability.
- The assumed post-retirement benefit increase rate was changed from 1.0% per year for all years to 1.0% per year through 2044 and 2.5% per year thereafter.

2016 Changes in Actuarial Assumptions:

- The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2035 and 2.5% per year thereafter to 1.0% per year for all future years.
- The assumed investment return was changed from 7.9% to 7.5%. The single discount rate was changed from 7.9% to 7.5%.
- Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by 0.25% to 3.25% for payroll growth and 2.50% for inflation.

PERA – Public Employees Police and Fire Fund

2022 Changes in Actuarial Assumptions:

- The single discount rate changed from 6.50% to 5.4%.

- The mortality improvement scale was changed from Scale MP-2020 to Scale MP-2021.

2021 Changes in Actuarial Assumptions:

- The investment return and single discount rates were changed from 7.50% to 6.50% for financial reporting purposes.
- The inflation assumption was changed from 2.50% to 2.25%.
- The payroll growth assumption was changed from 3.25% to 3.00%.
- The base mortality tables for healthy annuitants, disabled annuitants and employees were changed from RP-2014 tables to Pub-2010 Public Safety Mortality tables. The mortality improvement scale was changed from MP-2019 to MN-2020.
- Assumed salary increase and retirement rates were modified as recommended in the July 14, 2020 experience study. The changes result in a decrease in gross salary increase rates, slightly more unreduced retirements and fewer assumed early retirements.
- Assumed rates of withdrawal were changed from select and ultimate rates to service-based rates. The changes result in more assumed terminations.
- Assumed rates of disability were increased for ages 25-44 and decreased for ages over 49. Overall, proposed rates result in more projected disabilities.
- Assumed percent married for active female members was changed from 60% to 70%.

2020 Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2018 to MP-2019.

2019 Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2017 to MP-2018.

2018 Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2016 to MP-2017.

2017 Changes in Actuarial Assumptions:

- The single discount rate was changed from 5.6% to 7.5%.
- Assumed salary increases were changed as recommended in the June 30, 2016 experience study. The net effect is proposed rates that average 0.34% lower than the previous rates.
- Assumed rates of retirement were changed, resulting in fewer retirements.
- The Combined Service Annuity (CSA) load was 30% for vested and non-vested deferred members. The CSA was changed to 33% for vested members and 2% for non-vested members.
- The base mortality table for healthy annuitants was changed from the RP-2000 fully generational table to the RP-2014 fully generational table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016. The base mortality table for disabled annuitants was changed from the RP-2000 disabled mortality table to the mortality tables assumed for healthy retirees.
- Assumed termination rates were decreased to 3% for the first three years of service. Rates beyond the select period of three years were adjusted, resulting in more expected terminations overall.
- Assumed percentage of married female members was decreased from 65% to 60%.
- Assumed age difference was changed from separate assumptions for male members (wives assumed to be three years younger) and female members (husbands assumed to be four years older) to the assumption that males are two years older than females.
- The assumed percentage of female members electing Joint and Survivor annuities was increased.
- The assumed post-retirement benefit increase rate was changed from 1.00% for all years to 1.00% per year through 2064 and 2.50% thereafter.

2016 Changes in Actuarial Assumptions:

- The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2037 and 2.5% per year thereafter to 1.0% per year for all future years.
- The assumed investment return was changed from 7.9% to 7.5%. The single discount rate changed from 7.9% to 5.6%.
- The assumed future salary increases, payroll growth, and inflation were decreased by 0.25% to 3.25% for payroll growth and 2.50% for inflation.

Single Employer – Fire Relief Association

2022 Changes in Actuarial Assumptions:

- The mortality improvement scale was changed from Scale MP-2020 to Scale MP-2021.

2021 Changes in Actuarial Assumptions:

- The mortality improvement scale was changed from Scale MP-2019 to Scale MP-2020.
- The expected return on assets decreased from 6.25% to 6.00%
- The discount rate decreased from 6.25% to 6.00%
- Base mortality tables were changed from RP-2014 tables to Pub- 2010 tables, with adjustments.

2020 Changes in Actuarial Assumptions:

- The discount rate decreased from 6.75% to 6.25%
- The expected return on plan assets decreased from 6.75% to 6.25%
- The price inflation assumption was decreased from 2.50% to 2.25%
- The mortality improvement scale was changed from Scale MP-2018 to Scale MP-2019

2019 Changes in Actuarial Assumptions:

- The mortality improvement scale was changed from Scale MP-2017 to Scale MP-2018

2018 Changes in Actuarial Assumptions:

- The discount rate decreased from 7.50% to 6.75%
- The expected return on plan assets decreased from 7.50% to 6.75%
- The price of inflation assumption was decreased from 2.75% to 2.50%
- The mortality improvement scale was changed from Scale MP-2016 to Scale MP-2017

2017 Changes in Actuarial Assumptions:

- The base mortality table for healthy annuitants was changed from the RP-2000 fully generational table to the RP-2014 fully generational table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016.

2016 Changes in Actuarial Assumptions:

- The discount rate increased from 6.75% to 7.50%
- The expected return on plan assets increased from 6.75% to 7.50%

Special Revenue Funds

Special revenue funds account and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Telecommunications: accounts for the revenue and expenditures in the administration, maintenance, and participant activities divisions for Telecommunications

License Center: accounts for the revenue and expenditures used to provide state hunting, fishing and motor vehicle licenses, as well as passports.

Charitable Gambling: accounts for the revenue and expenditures used from charitable gambling

Opioid Settlement Fund: accounts for the revenue and expenditures used towards preventing the abuse of opioid addiction.

STATISTICAL SECTION

This part of the City of Roseville's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City of Roseville's overall financial health.

Contents:	Page
Financial Trends	115-121
These schedules contain trend information to help the reader understand how the City of Roseville's financial performance and well-being have changed over time.	
Revenue Capacity	123-129
These schedules contain information to help the reader assess the City of Roseville's most significant local revenue source, the property tax.	
Debt Capacity	130-133
These schedules present information to help the reader assess the affordability of the City of Roseville's current levels of outstanding debt and the City's ability to issue additional debt in the future.	
Demographic and Economic Information	134-135
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City of Roseville's financial activities take place.	
Operating Indicators	137-141
These schedules contain service and infrastructure data to help the reader understand how the information in the City of Roseville's financial report relates to the services the City provides, and the activities it performs.

(1) Overlapping rates are those of local and county governments that apply to property owners within the City of Roseville. Not all overlapping rates apply to all City of Roseville property owners (e.g., the rates for special districts apply only to the portion of the government's property owners whose property is located within the geographic boundaries of the special district).

Ramsey County	232,787,000	9%	\$ 20,950,830
Total Overlapping Debt	3,962,393,171		179,698,192
Total Direct and Overlapping Debt	\$ 3,977,301,192		\$ 194,606,213

*Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Roseville. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

2022	36,440	2,280,925,360	62,594	7,379	11,486	2.2%

- (1) Population and per capita income figures, other than census year, are estimates provided by the Metropolitan Council. The last census was taken in the year 2010.
- (2) This estimated personal income number is calculated by taking the per capita personal income of Ramsey County and multiplying it by the City population. Also see note (3) regarding the Per Capita Personal Income figures.
- (3) The per capita personal income used is for that of Ramsey County, in which the city resides, the smallest region applicable to the City that this information is available for. In addition, the 2009 - 2011 figures are an estimate for the State of Minnesota provided by the Bureau of Economic Analysis as there were no other relevant estimates available at the time of this report.
- (4) The City is served by two independent school districts.
 District #623 covers approximately 67% of the City, while District #621 covers approximately 33% of the City. Accordingly, not all students enrolled in District #621 live in the City of Roseville.
 Information is provided by the Roseville and Moundsview School Districts.
- (5) Annual average unemployment provided by the Minnesota Department of Employment & Economic Development

(1) In 2015 the Finance Department discovered a new method to calculate and better represent the number of full-time equivalents employed by the City. The new calculation includes temporary or seasonal employee hours that were previously difficult to account for, which explains the large increase from 2014 to 2015.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and
Members of the City Council
Roseville, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Roseville, Minnesota, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise City of Roseville, Minnesota's basic financial statements, and have issued our report thereon dated May 3, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Roseville, Minnesota's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Roseville, Minnesota's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Roseville, Minnesota's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and responses as item 2022-001 that we consider to be a material weakness.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Roseville, Minnesota's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

City of Roseville, Minnesota's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the City of Roseville, Minnesota's response to the finding identified in our audit and described in the accompanying schedule of findings and responses. The City of Roseville, Minnesota's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of City of Roseville, Minnesota's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Roseville, Minnesota's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

St. Paul, Minnesota

May 3, 2023

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE AND REPORT ON
SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE
UNIFORM GUIDANCE

To the Honorable Mayor and
Members of the City Council
Roseville, Minnesota

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the City of Roseville, Minnesota's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the City of Roseville, Minnesota's major federal programs for the year ended December 31, 2022. The City of Roseville, Minnesota's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City of Roseville, Minnesota complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

City of Roseville, Minnesota
Report on Compliance for Each Major Program and on Internal Control over
Compliance and Report on Schedule of Expenditures of Federal Awards

We are required to be independent of the City of Roseville, Minnesota and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the City of Roseville, Minnesota's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City of Roseville, Minnesota's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City of Roseville, Minnesota's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City of Roseville, Minnesota's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City of Roseville, Minnesota's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.

City of Roseville, Minnesota

Report on Compliance for Each Major Program and on Internal Control over Compliance and Report on Schedule of Expenditures of Federal Awards

- Obtain an understanding of the City of Roseville, Minnesota's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the City of Roseville, Minnesota's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

City of Roseville, Minnesota
Report on Compliance for Each Major Program and on Internal Control over
Compliance and Report on Schedule of Expenditures of Federal Awards

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Roseville, Minnesota as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the City of Roseville, Minnesota's basic financial statements. We issued our report thereon dated May 3, 2023, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Notes to the Schedule of Expenditures of Federal Awards

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the City of Roseville, Minnesota (City) for the year ended December 31, 2022. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the presentation of, the financial statements.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized when incurred, following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Note 3. Indirect Cost Rate

City of Roseville, Minnesota did not elect to use the 10% de minimis cost rate as allowed under the Uniform Guidance.

Note 4. Subrecipients

City of Roseville, Minnesota did not pass any federal funds to subrecipients during 2022.

- This page intentionally left blank -

COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE

To the Honorable Mayor and
Members of the City Council
City of Roseville, Minnesota

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Roseville, Minnesota for the year ended December 31, 2022. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated January 12, 2023. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the City of Roseville, Minnesota are described in Note 1 to the financial statements. As described in Note 3.G. to the financial statements, the City of Roseville, Minnesota adopted new accounting guidance for 2022, Governmental Accounting Standards Board Statement No. 87, Leases. We noted no transactions entered into by the City of Roseville, Minnesota during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

The most sensitive estimates affecting the City of Roseville, Minnesota's financial statements are the estimated present value of the lease receivable and lease liability, and the estimates used to calculate the net pension liability, the pension related deferred outflows and inflows of resources, and pension expense. These estimates are based on the City of Roseville, Minnesota's estimated incremental borrowing rate as of January 1, 2022 and actuarial studies. We evaluated the key factors and assumptions used to develop the estimates in determining that they are reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. Determining sensitivity is subjective, however, we believe the disclosures most likely to be considered sensitive are Note 4C – Employee retirement systems and pension plans and Note 7 – Special item disclosure.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no uncorrected misstatements that have an effect on our opinion on the financial statements. The uncorrected misstatements or the matters underlying them could potentially cause future period financial statements to be materially misstated, even though, in our judgment, such uncorrected misstatements are immaterial to the financial statements under audit. The following material misstatements detected as a result of audit procedures were corrected by management:

- The carrying amount of cash and investments was adjusted by approximately \$497,000 to accurately report cash held by the city at year-end. The adjustment resulted in the recording of additional activity at the license center for approximately \$188,000 in revenues, \$94,000 in receivables, and \$403,000 in payables.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated May 3, 2023.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to City of Roseville, Minnesota's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as City of Roseville, Minnesota's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to the management discussion and analysis, budgetary comparison information, and schedules of OPEB and Pension information, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the

information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on combining and individual nonmajor fund financial statements and schedules, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on the introductory report and statistical sections, which accompany the financial statements but are not RSI. Such information has not been subjected to auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reports

Various reports on compliance and internal controls are contained in the Other Required Reports section of the audited financial statement document.

Restriction on Use

This information is intended solely for the information and use of the City Council and management of the City of Roseville, Minnesota and is not intended to be, and should not be, used by anyone other than these specified parties.

MINNESOTA LEGAL COMPLIANCE REPORT

To the Honorable Mayor and
Members of the City Council
City of Roseville, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Roseville, Minnesota as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the City of Roseville, Minnesota's basic financial statements, and have issued our report thereon dated May 3, 2023.

In connection with our audit, nothing came to our attention that caused us to believe that the City of Roseville, Minnesota failed to comply with the provisions of the contracting – bid laws, depositories of public funds and public investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and tax increment financing sections of the *Minnesota Legal Compliance Audit Guide for Cities*, promulgated by the State Auditor pursuant to Minnesota Statute § 6.65, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the City of Roseville, Minnesota's noncompliance with the above referenced provisions, insofar as they relate to accounting matters.

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this communication is not suitable for any other purpose.
