

2025 Roseville Private Inflow and Infiltration (I&I) Sewer Service Grant

The City of Roseville received a **\$53,000 Metropolitan Council grant** in 2025 to help homeowners fix their **private sewer lines**. This helps keep rainwater and groundwater out of the city's sewer system.

Who Can Apply?

- You must own a home in Roseville.
- City of Roseville employees **cannot** apply.
- The sewer must serve a **lived-in and homesteaded** home.

How It Works

- Money is given out **first come, first served**.
- **\$20,000** is saved for people who meet equity guidelines.
- If all the money runs out, you can join a waiting list.

What Costs Are Covered?

- Fixing or replacing sewer pipes that are broken or have tree roots inside them.
- Video inspections and pipe cleaning if you qualify for 75% or 100% grant coverage or if repairs are needed.
- Disconnecting foundation drains and installing a new sump pump if needed.
- Permit fees (homeowner or contractor must get the permit).

How Much Money Can You Get?

The grant covers **part or all** of the repair cost, based on need:

- **100% (up to \$10,000)** if you participate in programs like SNAP, SSI, or Energy Assistance.
- **75% (up to \$7,500)** if your home is worth **\$290,300 or less** ([on Ramsey County's website](#)).
- **50% (up to \$5,000)** if you don't meet the above criteria.

Important Rules

- Repairs must be **done within 60 days** of approval and before **December 31, 2025**.
- Homeowners must pay any amount not covered by the grant.
- The city pays the grant money **to the applicant** after the work is done and inspected.

The Process

1. **Send your application** to engineering@cityofroseville.com.
 - You will get a response within **3 business days** with next steps.
2. **Get estimates** from at least **two contractors**.
3. **Send two video inspections** (your contractor will provide these):
 - One **before** the repair showing the problem (like cracks or roots).
 - One **after** the repair showing it was fixed.
4. **Send a detailed invoice** from your contractor. It must include your address, what was fixed, how much was repaired, contractor's information and final cost.
